● *Volunteer*

Microsoft Developers Community in Uzbekistan

CERTIFICATIONS

2023 - HackerRank C# (Basic) - Credential ID : E054340883FE

2023 - HackerRank Problem Solving (Basic) - Credential ID : B87AFD151505
2023 - HackerRank Problem Solving (Intermediate) - Credential ID : 8586CDD70114

PROJECTS

SalesPro

Team project
Kassa-Uz is an open-source point-of-sale (POS) system designedformarkets. It provides an easy-to-use interface for managingsales,inventory, and customer information. My role is key developer

FleetFlow

Team project
I worked as a .NET developer on the challenging FleetFlow project.Mymain task was to develop and maintain the REST API using thelatesttechnologies. I also focused on writing clear documentationandproviding support to the team. This experience helped megainexpertise in .NET Core, C#, and REST API development.

EduTrack

Team Project
We developed a CRM (Customer Relationship Management) system for a Learning Centre. Utilizing .NET 6 and Entity Framework, I created an efficient solution for managing customer interactions and data. The system featured a user-friendly interface, allowing for easy management of student information, enrollment, and scheduling. The CRM improved the Learning Centre's operations, enhancing customer communication and streamlining administrative tasks.
